

## Laboratory Manuals

As leaders in the provision of Laboratory Training Services, NuLab also has an unrivalled track record of preparing Laboratory Procedures Manuals with the experience, expertise, resources and flexibility to respond to our clients' technical authorship needs around the globe.

Many leading companies including Apache, BP, Chevron, CNR, Exxon Mobil, Maersk FPSO's, Marathon, Premier Oil and Wood Group have chosen NuLab to develop standardised Laboratory Procedure Manuals, giving you the confidence that NuLab specialists have the technical authorship skills and in-depth knowledge necessary to provide documents of the highest possible quality.

We have built up an extensive library of over 500 differing methods, with the majority of our technical procedures being written specifically for the task or actual equipment used, taking into account all applicable International Standards, company standard operating procedures, Good Laboratory Practice and the requirements of partners and legislative bodies.

NuLab Consultants have the experience, expertise, resources and flexibility to respond to our clients' needs around the globe.

Please call us to discuss your requirements.
